## Malaria Deaths in Africa: 2000-2014

Which countries are most affected?

Darker shading marks a higher number of deaths caused by Malaria. Select a country on the map to explore how the number of malaria deaths have changed over time.

How have the number of malaria deaths changed over time in Kenya?

Malaria deaths are easily preventable. Help today: <https://www.malariamore.org.uk/>

tableau

“Deaths per year due to malaria in Kenya deaths numbers have been about disappear since 2010. From that dashboard, I clicked on Kenya on the map, this showed deaths due to malaria for each year from 2000 to 2014. Before 2011, there were about 24K-50K deaths per year. At 2004 deaths decreased to the half, then from 2005 to the end of 2006 number of deaths increased to the double, starting in 2011, deaths were reduced to about 0K-1K per year.”

“Deaths per year due to malaria in Algeria deaths numbers have been about the lowest since 2000. From that dashboard, I clicked on Algeria on the map, this showed deaths due to malaria for each deaths numbers, which mean that it malaria wasn't spread at that regain .”

“Deaths per year due to malaria in South Africa deaths numbers was active at 2000, then 2007 and later spread again and stopped at 2014. From that dashboard, I clicked on South Africa on the map, this showed deaths due to malaria for each deaths numbers there were about 100-400 deaths per year, the top deaths year per day was at 2000.”
